

**“UNITED,
We Improve People’s
Lives.”**

From the Board President

Last year Dickinson and the surrounding area witnessed many changes and several more changes are certain to come in the year ahead. Some of these changes have presented many of our area community agencies with an increased demand for their services> These increased demands led many area agencies to seek help from United Way. United Way helps improve the lives of individuals by supporting programs that provide education, health, and job opportunities. These programs provide the essential building blocks to a higher quality of life for members in our community.

Through the hard work of volunteers, agencies and those who have donated to United Way, we are able to make a difference in our community. I would like to thank everyone who generously gave their time and financial support to make this a record setting year.

Thanks to the area community agencies for all of the hard work you do to support this annual United Way Campaign! A special thank you is extended to our board members and staff for their hard work and dedication that has made this a record breaking year!

Melissa Benz—2010-11 United Way Board President

From the Campaign Chair

By improving the life of just one person, we improve the entire community. The community of Dickinson has done so much more for the 2010-2011 United Way Campaign. Through your support, we have again improved on past record breaking results with over \$255,000 contributed to support the United Way and member agency programs. From the very generous contributions of donors, we are able to improve the lives for our citizens and make a difference in our community.

The United Way Member Agencies saw a need and an opportunity to improve our community and took the lead in developing programs that benefited individuals and the community as a whole. They were able to improve our community by showing kindness, offering financial support, delivering many different services and most important, giving of their time.

Success of the 2010-2011 Campaign, **Improving Lives**, would not have been possible without the many volunteers that gave of their time to do the many tasks necessary during the campaign. Your time and efforts are greatly appreciated especially knowing that for you to say yes to volunteering also means you are saying no to something else you could be doing. Yours and our vision to promote self-sufficiency, to strengthening our families, to assist and nurture the elderly and disabled citizens to help promote independence, and to give our youth a safe and healthy place to live and the tools they need to achieve their full potential in life are only possible because of your continued dedication to the United Way.

Luke Franklin—2010-11 Campaign Chair

--------------	------------------

This year, the United Way of Dickinson Kicked of our “Improving Lives” campaign as a constant reminder to our community when we work together, we influence the condition of all.

We continued to partner with local social service organizations developing strong, strategic approaches for tackling the big problems in our community.

Under the remarkable leadership of Luke Franklin, 2010-11 Campaign Chairperson, corporations, organizations and individual throughout the Dickinson area responded enthusiastically surpassing last year’s campaign and raising a record \$255,951. It is through the generosity of others that we are able to improve the lives of others.

THANK YOU DICKINSON!
